The UK's Leading Provider of Cosmetic Surgery

The Hospital Group only employ GMC registered cosmetic surgeons, who are specialists in the field of cosmetic surgery. We carry out hundreds of procedures every month, reinforcing our expertise within the industry.

UK Cosmetic Surgery Statistics - 2010

Even during the recession, cosmetic surgery has continued to grow in popularity, with more women and men than ever choosing to improve their appearances and boost their confidence.

Statistics from not-for-profit industry-body BAAPS (British Association of Aesthetic Plastic Surgeons) showed a slow but steady rise of 5% in the number of surgical procedures in 2010 compared to 2009.

2011 Cosmetic Surgery Trends

As the economic recession begins to lift, Cosmetic Surgery procedures are expected to increase.

In the first 4 months of 2011, The Hospital Group has already seen enquiries up 17% on the previous year with interest from female patients up 14% and male patients a massive 40%.

Cosmetic Surgery for Women

Cosmetic surgery for women accounts for about 90% of all procedures in the UK according to BAAPS and grew by 5% in 2009.

The Hospital Group treats literally thousands of women every year with a wide variety of treatments and procedures.

As well as an experienced team who truly listen to you and understand your needs, we offer a safe, reassuring and professional environment to put you at ease and make your experience as comfortable as possible.

Top 5 Procedures Requested in 2010 by Women

- Breast enlargement
- Liposculpture (liposuction)
- Tummy tuck
- Rhinoplasty
- Breast uplift
